5. **The printout of commodities received in 2006-2007 has been included in this mailing.** The school auditor may want the total value of commodities received during the 2006-2007 school year. Note the last line, district totals, column, and commodity value.

You should carefully compare this printout with your warehouse releases. There have been some deletions/ additions to various orders, and it may be necessary in your district to adjust the final total. It is not necessary to send the state a copy of your adjustments. If you need to adjust the totals, do so before you submit it to your administrative office.
6. **Year-End Inventory has not been required since the 2001-2002 school year.** Iowa has gone to the "Single Inventory Method" of commodity recordkeeping. Schools will not have to send in your "Year end Inventory Report" to this office.

7. **The “Single Inventory Method” guidance** booklet, which includes basic guidelines and some questions and answers, may be obtained by calling this office. This is the same information booklet we have issued the past four to five years. This would be information for new Food Service managers.
8. **Iowa Food and Distribution Program.** If you need additional information, commodity values, or forms for the Commodity Food Distribution programs, please visit our web site at: <http://www.iowa.gov/educate/>
9. **All commodity values** for this school year (2006-07) will be found on the Bureau web page. We will put in new 2007-2008 values as soon as we get them updated.
10. **Processed Commodity Food Items for 2007-2008.** All food items coded 2500 or above are processed food items and are an extra cost to your school district. You will be allocated one (1) of each item for all processed foods coded 2500 or above. If you ***do not*** want this product, you must put a “0” in the amount wanted column. You ***do not*** have to take these processed food items. Please note that there is a difference between the commodity value and the price of each item. The commodity value is the amount in each unit of product that is deducted from your school entitlement, unless it is a bonus commodity. The price of each item is the cost of the finished processed product. The school cost does not include the per case shipping and handling fee charged by Keck, Inc. for each case of product shipped. These are all optional products. The costs will be included in the amount you pay Keck, Inc. There will be ***no*** separate billings for processed products. Current (07-08) Commodity Fact Booklets are now available upon request.
11. **Debarment/Suspension.** Debarment is an action taken by a Federal agency to exclude a person or other entity from participating in any transaction involving Federal funds or other assistance. Suspension is an action taken to immediately exclude a person/entity from such transactions for a temporary period pending the completion of a debarment or other legal action.

Persons or entities that are debarred or suspended by a Federal agency are, with a few exceptions, to be excluded from financial and non-financial assistance and benefits under other Federal non-procurement programs and activities. A contractor or other entity must certify that it has not been debarred or suspended by a Federal agency before it can enter into a covered contract or agreement. In accordance with 7 CFR Part 3017, covered transactions include procurement contracts for goods or services valued at or in excess of \$100,000, and procurement contracts for federally required audit services, regardless of amount.

The required certification form, USDA Form AD-1048, *Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tiered Transactions* may be obtained by contacting Dean Flaws at the Iowa Department of Education at (515) 281-4032. This form should be completed by the entity with which you contract, with one copy forwarded to the Iowa Department of Education and one copy maintained at your agency.
